# MILLING KITS

## ALASKAN MK IV C2 & C3 MILL PACKAGES

### COMPLETE MILL KITS: G778-C2 (.404 pitch) & G778-C3 (3/8 pitch)

C series kits come with everything you need to produce high-quality dimensional lumber and live sawn planks and beams. Chain saw powerhead not included.

Lead times may apply. Call for availability.

#### AVAILABLE AS:

(3/8)	(.404)	Cut width
G778-30C3	G778-30C2	26"
G778-36C3	G778-36C2	32"
	G778-48C2	44"
	G778-56C2	52"

\*Available in larger sizes 60C2; 72C2; 84C2.

Please note that C packages over 36" come in .404 only. If your saw has a 3/8 drive sprocket, you will need to purchase an aftermarket sprocket from your saw dealer.

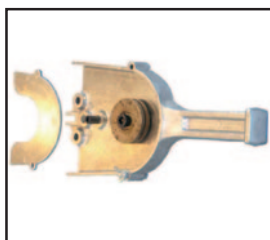

**C PACKAGE KITS INCLUDE:** MKIV Mill and all items shown below.  
Ripping Chain

Double Ended Bar

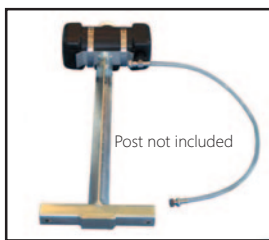

Available in 44"; 50"; 56"; 66"; 72"; 84" and 96". Width of cut will be about 14"-16" less than bar length.

Helper Handle  
G975

This handle incorporates an adjustable chain roller so chain tension can be adjusted at the end of the saw bar. Also available without a roller for single-ended bars (G971).

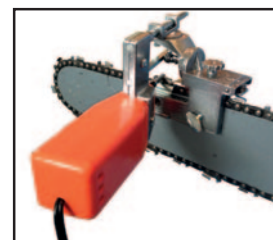

Oiler Kit  
G801A

An Auxiliary Oiler Kit extends saw bar life, provides for cooler cutting and prevents early bar wear. Can also be used with single-ended bars.

Slabbing Rail Bracket  
G850

Aluminum brackets with supplied hardware, attach to 2 x 4's (not included). An economical way to guide your first cut.

Precision Grinder  
G1012XT

Clamps on the saw bar and allows accurate sharpening of cross cut and ripping chain to factory specs.

# BASIC MILLS

## ALASKAN MK-IV

The original portable chain saw mill.

High quality woodworking tool for the carpenter and outdoor enthusiast. Clamps directly on chain bar, no drilling required. Available in 24" to 84". Product sku: G778-24, 30, 36, 48, 56, 60, 72, 84

## SMALL LOG MILL

Designed for use with saws of less than 20".

Compact, lightweight and easy to use on smaller logs. Clamps directly on chain bar, no drilling required. Attach your chain saw and start making lumber! Product sku: G777

*Suggested accessories for Alaskan MKIV & Small Log Mill include Slabbing Rail Brackets (G850), EZ-Rails (G1010/1085) & Granberg Ripping chain.*

## EDGING MILL

Quickly and efficiently cut side cants without having to roll the log.

Best used in tandem with the G778 or G777.

Makes vertical cuts simple. Perfect for cutting beams and squaring logs. Clamps directly on chain bar, no drilling required. Product sku: G555B

## MILLING ACCESSORIES

ALASKAN WINCH

The new Alaskan winch makes milling a cinch! No more bending or pushing. Includes winch assembly and lever arm. Mill shown for reference only. Product SKU G478

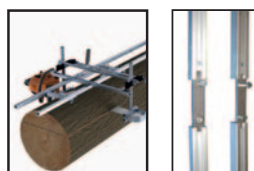

EXTENDED DEPTH POSTS

Mill beams up to 34" deep with these extended depth posts. Product sku: 791F36, 792F36

SLABBING RAIL BRACKETS

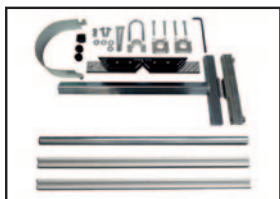

Sturdy, 16" aluminum brackets with supplied hardware attached to two 2 x 4's (not included) to help guide your first cut. Product sku: G850

EZ RAILS & CONNECTOR KIT

EZ Rails attach and level in minutes, providing a platform for guiding the Alaskan or Small Log saw mill. This stable, lightweight system makes the first cut accurate, fast and "EZ". Available in 5ft & 10ft kits. Product Sku: G1010 (10ft) & G1085 (5ft) Need more length? Extend any two EZ Rail systems in seconds with the connector kit. Product sku: G1090

## MILL CONVERSION ACCESSORIES

### SMALL LOG MILL CONVERSION KITS

Convert your G777 Small Log Mill to a G778 MK-IV mill using these conversion kits. Product sku: G998-24, G998-30, G998-36

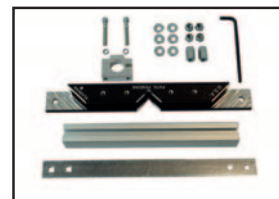

### HANDLE AND RAIL SETS

Up size your existing MK-IV mill. Sizes over 60" will require the purchase of one or more G778-17 C2 parts kits. Product sku: G781-24; 30; 36; 56; 60; 72 & 84.

### ON-OFF BAR & SMALL HANDLE

Add needed rigidity and additional control when up sizing your mill. Fits any MK-IV Alaskan Mill. Product sku: G996

### C2 PARTS KIT

Add additional C2 parts kits to stiffen and support your Alaskan MK-IV for extra wide cuts. Product sku: G778-17

# CHAIN TOOLS

## DUALSHARP

A dual purpose grinder that sharpens hedge trimmers and chain saws. Comes with stones and guides for both applications. Product SKU: F210

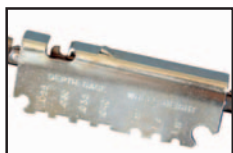

## GRIND-N-JOINT

The first hand held 12 volt belt-driven portable chainsaw sharpener. Allows for the quick and accurate tuning of chainsaw chain. Product SKU: G912XT

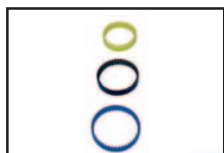

## BREAK-N-MEND

Cut your own chain loops with this tool. Adjustable anvils and rivet spinner allow for chain repair on the go. Product SKU: G605C

## EZ-GAGE

Accurately set stone depths for handheld grinders with no guess work. Product sku: 2218F

## DRIVE BELTS

For all Granberg belt-driven grinders. Product sku: 0843F (35 tooth) 0840F (40 tooth) 0888F (44 tooth)

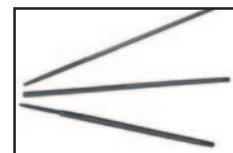

## GRINDING STONES

Product sku: G417-3 (5/32) G418-3 (3/16) G419-3 (7/32) G420-3 (1/4) G421-3 (9/32) G422-3 (5/16) G424-3 (3/8)

## KOOL-GRIND

For smoother sharpening and longer stone life. Product sku: 95-8385

## ROUND FILES

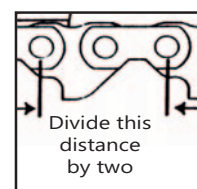

For hand-operated filers. Product sku: 95-8366V (5/32) 95-8368V (3/16) 95-8370V (7/32)

## GRANBERG RIPPING CHAIN

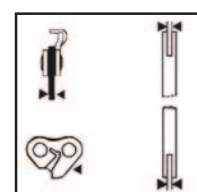

Modified chain for milling applications. Two sets of clearing cutters remove the left and right side of the cut, while two clearing cutters take out the ridge left behind. 25% more effective than standard cross cut chain.

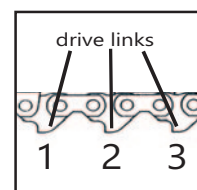

**PITCH:** This is half the distance as measured in inches between the center point of any three chain rivets. Standard sizes are .325", 3/8 Low Pro, 3/8 (.375") and .404".

**GAUGE:** This is the width of the drive tooth on the chain, and also the width of the groove on the bar. Standard sizes are .050", .058", .063

**LINK COUNT:** This enables us to send you the proper length of chain. Mark one drive link, then count drive links around the loop until you return to first link. Your total is the link count.

PITCH	GAUGE	MODEL	STONE & FILE SIZE
0.325	.050 .058 .063	G728-0 G728-8 G728-3	3/16"
0.365	(Picco, 3/8 Low Profile)	G729-2	5/32"
0.375 (3/8)	.050 .058 .063	G729-0 G729-8 G729-3	7/32"
0.404	.063	G730-3	7/32"

# ACCESSORIES

## FILE-N-JOINT

Designed by Elof Granberg in 1954, the File-n-Joint still sets the industry standard for accuracy and durability. Sharpens cross cut chain and ripping chain to factory specs. File not included.

Product SKU: G106B

## PRECISION GRINDER

Our top-selling electric grinder. Combines the stability and simplicity of the G106B File-N-Joint with the speed of the 12-volt grinder. The G1012XT mounts on the saw bar to allow accurate sharpening of cross cut and ripping chain to factory specs.

Product SKU: G1012XT

## GRIND-N-JOINT II

Freehand sharpener with fan cooled 22,000 RPM motor. EZ Gage included for accurate stone adjustments and depth gauge grinding. Special spline, bearing mounted direct drive power train provide years of long lasting service.

Product SKU: G721

## SAWTUNE

Powerful handheld sharpener with fan cooled 22,000 RPM motor. EZ Gage and marked angle plate ensure accurate angles, stone adjustments and depth gauge lowering.

Product SKU: F212

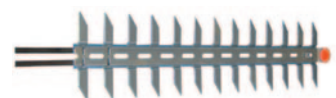

## SINGLE END GUIDE BARS

Ideal for heavy duty chain saw work, including all Granberg milling applications.

- Available in sizes from 18" - 20" in either 3/8" or .325" pitch, 18" - 42" in 3/8 pitch, and 54" - 96" in .404 pitch.
- Bar stud adaptors allow easy mounting to most common saw makes.

## CLIP-N-TRIM

This attachment converts your chain saw into a powerful hedge trimmer for cutting thick, hard to manage growth. Wide tine spacing allows for pruning branches up to one inch thick. Available for use with 12", 14" 16" and 20" saw bars.

Product sku:

G112B

G114B

G116B

G120B

## SAFETY EQUIPMENT

### CHAPS

Protective leg garment is designed to reduce the risk of injury in case of contact with an operating chain saw. Oil and water resistant. Meets OSHA and ASTM standards.

Product sku:

95-83032

(standard)

95-83033

(long)

### EYE SHIELD & EAR MUFF SET

Ratchet-adjusted headgear and suspension. Adjustable headband. Low profile and lightweight. Plastic and mesh screen available.

Product sku:  
85-6264 (clear)  
85-6262 (mesh)
